### ***Memorandum of Understanding***

The Great Lakes Colleges Association is delighted to learn of the creation of the University of Kadri Zeka of Gjilan, Kosova, and its mission: “Educating students with most contemporary achievements in science, technology, cultivation of entrepreneurial and creative spirit, sense of lawfulness, justice and enabling them to face future challenges in a dynamic and permanently changing world.”

Because this mission is consistent with our educational purpose and values, and our goal of strengthening education for the betterment of humanity globally, we are pleased to be helpful to the University of Kadri Zeka as it works to fulfill its mission by facilitating connections among the faculty and staff of our member colleges in the United States, providing counsel and advice regarding best practices in education and administration, and encouraging the movement of professors and students among our institutions.

We enter into this agreement in good faith and with a shared belief in the importance of higher education for creating a better future for humanity.

Richard A. Detweiler, PhD

President

Great Lakes Colleges Association
