WORK EXPERIENCE

Senior Web Developer

eonBIT as | <https://eonbit.com>

October 2018 > Now (Full Time)

November 2016 > October 2018 (Part Time)

Information:

- My main responsibility is to work with outside suppliers to integrate their APIs in eonBIT main product (Eontyre | <https://eontyre.com>). The main stack that we use there is: PHP, MySQL, MongoDB and Vue.js

Teaching Assistant

Kadri Zeka University | <https://www.uni-gjilan.net>

October 2021 > Now (Part Time)

Information:

- Teaching Assistant on the following courses: Advanced Web Design (Bachelor Degree), Applied Estimation in AI and Robotics (Master Degree), The Basics of Artificial Intelligence (Master Degree), Web Services (Bachelor Degree), Hybrid and Integrated Control Systems (Master Degree), Advanced Artificial Intelligence - Methods and Applications (Master Degree)

Business Intelligence and Customer Relationship Management Specialist

Raiffeisen Bank Kosovo | <http://raiffeisen-kosovo.com> | October 2016 > October 2018

Information:

- I was responsible for analyses of CRM Business Requirements and performing data mapping between data warehouse and local systems. Also, I was responsible for creating reports needed by business staff (using Power BI, IBM Cognos, and Excel) and ETL processes (using Pentaho Data Integration).

Web Application Developer

Moitend | <http://moitend.com> | March 2015 > October 2016

Information:

- I worked as a web application developer and system administrator for the company servers. I used PHP with the Laravel framework for our projects. I also worked with vTiger CRM, and the integration of SMS and phone gateway on it.

Web and Android Developer

AlbSoft | October 2014 > January 2015

Information:

- I worked as a web developer, usually on WordPress websites. I also worked on developing applications for Android smartphones.

Management Information System / Business Intelligence - Intern

Raiffeisen Bank Kosovo | <http://raiffeisen-kosovo.com> | July 2014 > August 2014

Information:

- I was accepted in the internship program at “Raiffeisen Bank Kosovo”, a leading bank in Kosovo. During this time, I had the chance to test the interface that does the data transfer from the data warehouse to OFSA (Oracle Financial Service Application).

Co-Founder / Developer

FreeBlog Links | <http://freebloglinks.net> | October 2011 > Now

Information:

- Co-founded FreeBlog Links with a colleague from the Philippines. The whole structure is built by me, using PHP and MySQL. This network posts around 24,000 articles on daily basis on clients’ blogs. Up to now, there are around 100 million posts submitted by our clients and processed by our system.

Freelancer

Fiverr | <http://fiverr.com/edoniti> | July 2011 > August 2016

Information:

- In my free time as a student, I worked as a freelancer on Fiverr on different tasks. I had finished around 300 orders with 100% positive feedback in all orders.
